Get into STEM

Our award winning 'Get into STEM' workshops and kits provide primary school students from reception to year 2 with an opportunity to develop their knowledge and skills through fun and interactive learning. 47 Reception, Year 1 and Year 2 students from Bournmoor Primary School benefitted from the delivery of a Get into STEM workshop and 2-week loan of our 'Get into Stem' Kit, giving students further opportunity to access the resources.

Building My Skills

The Building My Skills programme aims to provide young people with a rounded introduction into the world of work via 5 employability workshops that are delivered by a range of business guests. The programme has been rolled out across 3 schools in close proximity to the scheme engaging over 460 students. Schools taking part in the Building My Skills programme include Academy 360, St. Robert of Newminster and Lord Lawson of Beamish.

Work Experience

A member of Esh staff attended Karbon Homes unlocking social value event to provide information to residents on available opportunities within Esh. During the event, residents were signposted to available vacancies and a number of work experience placements spanning 5-day periods were offered. By liaising with Karbon Homes Foundations for Life team, 2 work experience placements were arranged for residents who attended the event. The roles offered were General Operative and Plant Technician, and placements provided participants with an opportunity to learn more about the roles being undertaken whilst gaining invaluable hands on workplace experience.
